** HDFRLP Headlight Info: Energizer® Vision Ultra HD Rechargeable Headlamp brings outstanding performance in a compact design. It shows innovative features with its rechargeability (USB port) and the Energizer® Smart Dimming technology which allows for easy control of light intensity. In addition to the white LEDs, this light has green and red LEDs which preserve night vision for outdoors activities such as hunting and fishing. The VisionGuard technology gradually increases the light intensity to prevent a high beam straight in the users' eyes.

HDA32E

- Comfortable, powerful and robust, the Vision headlight provides all-around illumination for a variety of tasks
- High or low setting enables users to control brightness and runtime
- Pivoting head is perfect for hands-free illumination in restricted spaces

HDB32E

- The Vision HD headlight combines the latest technology with enhanced functionality
- Innovative smart-dimming feature provides users with maximum run time
- Powerful LEDs and unique optic design let users see in darkness or low-light conditions

HDC32E

- Full functionality and control; applies smart dimming technology to the Spot, Flood and Combined modes
- Powerful LEDs produce 200 lumens of light an a beam distance of up to 70 meters
- Red LEDs allow discreet night vision that won't disturb those around you

HDD32E

- Energizer's most innovative headlight w/unbeatable performance, patented digital focus technology & memory recall
- Digital focus gives users freedom to customize the light to the desired width by seamless switching between spot & flood
- Advanced memory recall enables users to quickly access their favorite focus setting next time they switch on
- Dual-button configuration offers a variety of light modes including red LEDs for night-time illumination

HDBIN32E

INDUSTRIAL (Silicone beading on strap for added grip)
